EDUCATION

Lovely Professional University Bachelor of Technology in Computer Science and Engineering; GPA: 8.71	Phagwara, Punjab Aug 2023 – Present
--	--

SKILLS

- **Languages:** C++, Java, Python, SQL, C
- **Backend Frameworks:** Node.js, Express.js, RESTful APIs, Microservices, Scalable System Design
- **Infrastructure & Tools:** Docker, AWS (S3, CloudFront, WAF), Git, GitHub, Linux/Unix , CI/CD Pipelines
- **Databases:** PostgreSQL, MongoDB, Data Modelling, Query Optimization
- **Security:** JWT Auth, IAM Policies, OWASP Top 10 Standards, Cryptography (AES/RSA), Problem-Solving

Internship EXPERIENCE

Blue Stock Fintech Software Development Engineer Intern (Backend)	Remote Oct’ 25 – Dec’ 25
• Designed and deployed 15+ scalable REST API endpoints for the IPO platform, achieving 95% code coverage through rigorous Jest unit testing. • Integrated an AI-driven stock analysis model that automated manual data entry, saving the team 12 hours per week and improving report generation speed by 40%. • Optimized PostgreSQL database queries to support 100+ concurrent users, reducing average API response time by 150ms during peak loads.	
Tech Saksham (Microsoft & SAP) AI Intern	Remote Feb’ 25 – Apr’ 25
• Automated ETL data pipelines using Python (Pandas) to clean and aggregate raw activity logs, achieving 99% accuracy for KPI tracking. • Executed rigorous data validation and anomaly detection workflows to ensure model reliability before deployment. • Visualized raw data via a real-time Stream lit dashboard, transforming static JSON logs into actionable health insights for stakeholders.	

PROJECTS

Crowd Funding Platform Link	Aug’ 25
• Launched a scalable fundraising application allowing users to create campaigns, supporting 500+ concurrent requests via optimized APIs. • Integrated secure JWT authentication to manage campaign data and protect user transactions against unauthorized access. • Refined MongoDB schemas for efficient data retrieval, reducing query latency by 30% under load.	
Shado Text (Secure Communication) Link	Jul’ 25
• Programmed an End-to-End (E2E) encrypted chat system using AES and RSA algorithms to guarantee zero data leakage. • Performed manual penetration testing to identify and resolve 5 critical vulnerabilities against common OWASP threats.	

ACHIEVEMENTS & AWARDS

- **Aspire Institute Grant:** Selected in **Top 20 candidates in India** (from a global pool of 44 countries) awarded **\$400 grant**. Jan’ 26
- **TCS Code Vita Season 13:** Secured **Global Rank 4419** in one of the world’s largest competitive coding competitions among 5 Lakh+ competitive programmer.

CERTIFICATIONS & CERTIFICATES

Oracle Certified AI Foundations Associate Oracle Link	Oct’ 25
Node.JS Hacker Rank Link	Feb’ 26
Cloud Computing NPTEL Link	Oct’ 25
TCP/IP and Advanced Topic Coursera Link	Jul’ 24
Gen AI Academy Google Cloud & Hack2Skills Link	Aug’ 25
